

On Time, Within Budget, Reliable Solutions

PRICING

We offer two kinds of engagements:

Time and Material

We charge for the time of our consultants and any agreed upon expenses. This gives you total control on the costs and gives you the agility to change the project direction whenever suites you.

Fixed Price

In a fixed price project, we start with Time and Material pilot project. This pilot project is usually a short term project of no more than few weeks. During the pilot project we deliver a proof of concept and specifications for the solution, and our Quote for delivering the solution on a fixed price bases. This gives you a total predictability about costs and time, but puts restrictions on what you can change.

Technology at work for you

- * Sympatico MSN
- * Great West Health Insurance
- * Bank of Montreal
- * Cando Networks
- * Burntsand
- * Toronto Star

Software Architecture Consulting

These engagements are short, dedicated, effective and very intense. We will review the product or project requirements and architecture; provide feedback or a new design direction. We will produce a design concept and a design document depicting the various design aspects of the system. Your developers can then simply use this design document as the system's blueprint and continue to construct the system.

Custom Web Enabled Solution Delivery

In these engagements we will assess your current technology, your business needs and define a new solution or enhancements to existing web enabled software solution. We provide our market proven and certified expertise in building software and web solutions, our reusable, pre-tested software library and our powerful solution delivery methodology.

Training Services

We provide practical training courses onsite or via online meetings. We teach the practical uses, and best practices of:

- BizTalk 2006 & 2009
- SharePoint WSS3.0 and MOSS 2007
- ASP.Net 3.5.
- WCF & WF
- SOA Principles
- ITIL 3.0
